For over 10 years, LevelMaster has been a leading supplier to the building industry, specialising in supplying adjustable foundation products, which includes house stumps, bracing, stair stringers and a large range of accessories. Our industry knowledge is extensive, having over 25 years combined experience within the structural arena. We offer our customers advice on the correct product and provide support that includes same or next day dispatch. Our products meet or exceed building regulations and are the first choice for designers and specifiers.

Our Commitment to you

We specialise in supplying our range in the shortest possible lead times ensuring that your building needs are delivered in full and on time. We achieve this by stocking our many variations of products at our warehouses and at our distributors. All our products hold engineering certifications so that you can use and recommend them to anyone with complete confidence. Furthermore, all LevelMaster products carry a comprehensive warranty on both workmanship and products.

Solutions for the Trade

Our unique patented designs have been created to solve a multitude of problems in today's building environment. Our stump product provides solutions for areas suffering soil movement and building blocks with difficult terrain. Installation times have been greatly reduced, as no on-site welding or pre-fabrication is required.

Hand in hand with LevelMaster stumps is our certified bracing available to suit a wide range of applications.

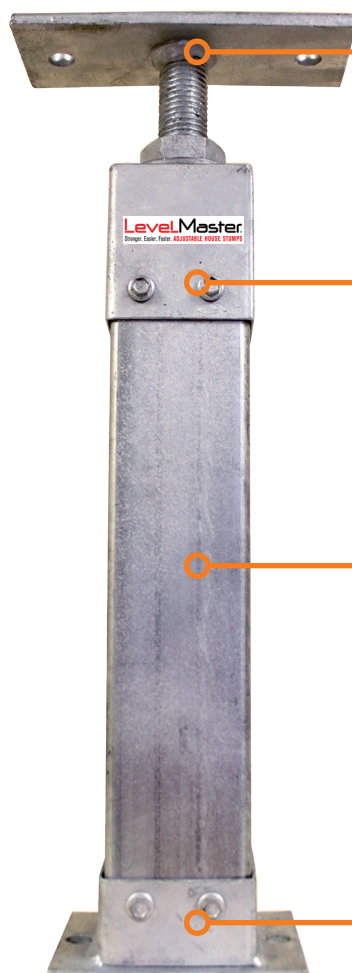

We offer great flexibility with our stair stringer range utilising a unique, interchangeable and adjustable base, which suits both cast in concrete or bolt down versions. All products are conveniently finished by being hot dipped galvanised, for added protection over the long term.

TOP CONNECTORS

Connects the stump to a LevelMaster top and also gives you the adjustment.

Screw On Connectors

Effortless installation, with a slip over sleeve that is fixed with tek screws.

Fits all SHS wall thicknesses.

- To suit a 75mm Post // Code: SO-75
- To suit a 90mm Post // Code: SO-90
- To suit a 100mm Post // Code: SO-100

Weld On Connectors

Welded onto SHS stump for maximum strength.

- To suit a 75mm Post // Code: WO-75
- To suit a 90mm Post // Code: WO-90
- To suit a 100mm Post // Code: WO-100
- To suit a 150mm Post // Code: WO-150

Screw Pile Connectors

Note: LevelMaster does **not** supply screw piles

- To suit a 76mm Pile // Code: SP-76
- To suit a 90mm Pile // Code: SP-90
- To suit a 114mm Pile // Code: SP-114
